

# Adding Custom Events

## Enhancement:

This feature provides user to created the events of his own choice leaving the default non editable values. User can add new event labels to picklist from picklist editor.

## Files Changed:

```
/include/PopulateComboFields.php
/modules
  /Calendar
    /CalendarLayout.php
    /AddEventUI.php
    /script.js
  /Settings/Picklist.php
  /Users/DefaultDataPopulator.php
/schema/DatabaseSchema.xml
/Smarty/templates/ActivityEditView.tpl
```

## Screen Shots:

# Picklist EditView:

The screenshot displays the 'Settings > Picklist Editor' interface. On the left is a navigation menu with categories: 'Users & Access Management' (Users, Roles, Profiles, Groups, Sharing Access, Fields Access, Audit Trails, User Login History), 'Studio' (Custom Fields, Picklist Editor, Recycle Bin), 'Communication Templates' (E-mail Templates, Mail Merge Templates, Notification Schedulers, Inventory Notifications), and 'Other Settings' (Company Details, Outgoing Server, Backup Server, Module Owners, Currencies, Tax Calculations). The main content area is titled 'Settings > Picklist Editor' with the subtitle 'Customize Picklist values in each module'. It features a '1. Select Module & Role' section with dropdowns for 'Select Role' (set to 'CEO') and 'Select CRM Module' (set to 'Events'). Below this is a 'Global Delete' section with a 'Status' dropdown and a 'Delete' button. The '2. Picklists Available in Events' section shows a table with columns for 'Status' and 'Edit'. The 'Status' column lists 'Planned', 'Held', and 'Not Held'. An 'Edit' button is visible next to the 'Planned' status. A modal window titled 'Edit Pick List - Activity Type' is open, containing a text area with 'Conference' and a 'Save' button. Below the modal, there is a section for 'Non Editable Picklist Entries' listing 'Call' and 'Meeting', with 'Select the parent role', 'Save', and 'Cancel' buttons at the bottom.
